Sir:

Applicants are submitting revised drawings herewith in response to the Official Action dated November 16, 1998. The drawings are being amended as follows:

In Fig. 1 the legend "PRIOR ART" is being added in compliance with MPEP § 608.02(g) as suggested by the Examiner.

In Fig. 5 the reference numeral "152" is being added in order to make the drawings reflect the specification.

In Fig. 5 the computer labeled with the reference numeral "180" is being replaced with a block labeled with the reference numeral "180".

Included herewith are red ink mark ups of the proposed drawing changes pursuant to MPEP 608.02(v).

The above changes do not add new matter to the application and do not substantially alter the drawings. Therefore, Applicants respectfully request approval of the drawing corrections. Further, the change from a computer to a block in Fig. 5 is being done in order to simplify printing of the patent upon issue.

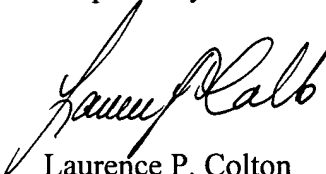

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Assistant Commissioner of Trademarks, 2900 Crystal Drive, Arlington, VA 22202-3513, on _____
